

Contento Wood Finishes

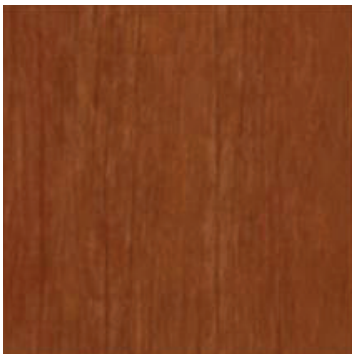

Palm

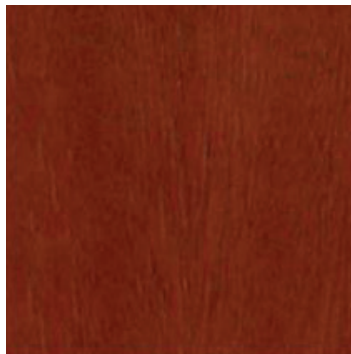

Whey

Hay

Cinnamon

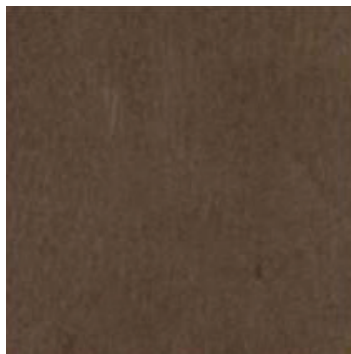

Persimmon

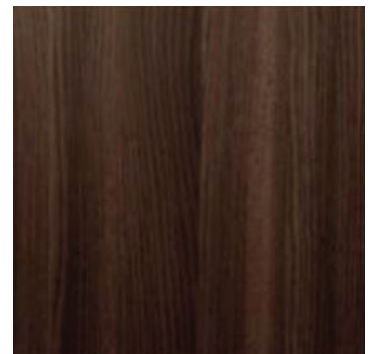

Chestnut

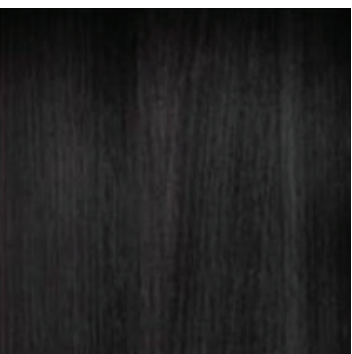

Magnolia

Tobacco

Espresso

Black Pepper

Due to the natural nature of wood, there will be some color variations from piece to piece.

It is important to control a consistent temperature and humidity level to prevent any issues with the wood products.

Dauphin wood finishes come standard as an "open pore" finish that looks the most like real wood. It is available as a "closed pore" finish at a slight upcharge. Custom finishes are also available upon request.
