WHEREVER YOU WORK

Hybrid, remote, in the office—the change in today’s work environment has opened up a world of new places and ways for how we work.

WHAT STATUS DOES THE OFFICE STILL HAVE?

A different one. The office of the future needs space for coming together. Everything will take place in the office—people will continue to collaborate for the best solutions, socialize, and meet with their coworkers, immerse themselves in a positive atmosphere, and connect with the company’s identity as well as their own.

BRINGING LOUNGE VIBES INTO THE OFFICE

Dauphin’s new lounge solutions help to ensure that everything can, and will, take place in the office. From agile and spontaneous to confidential moments, our solutions transform the work space into an atmospheric, homey place to meet for great results.

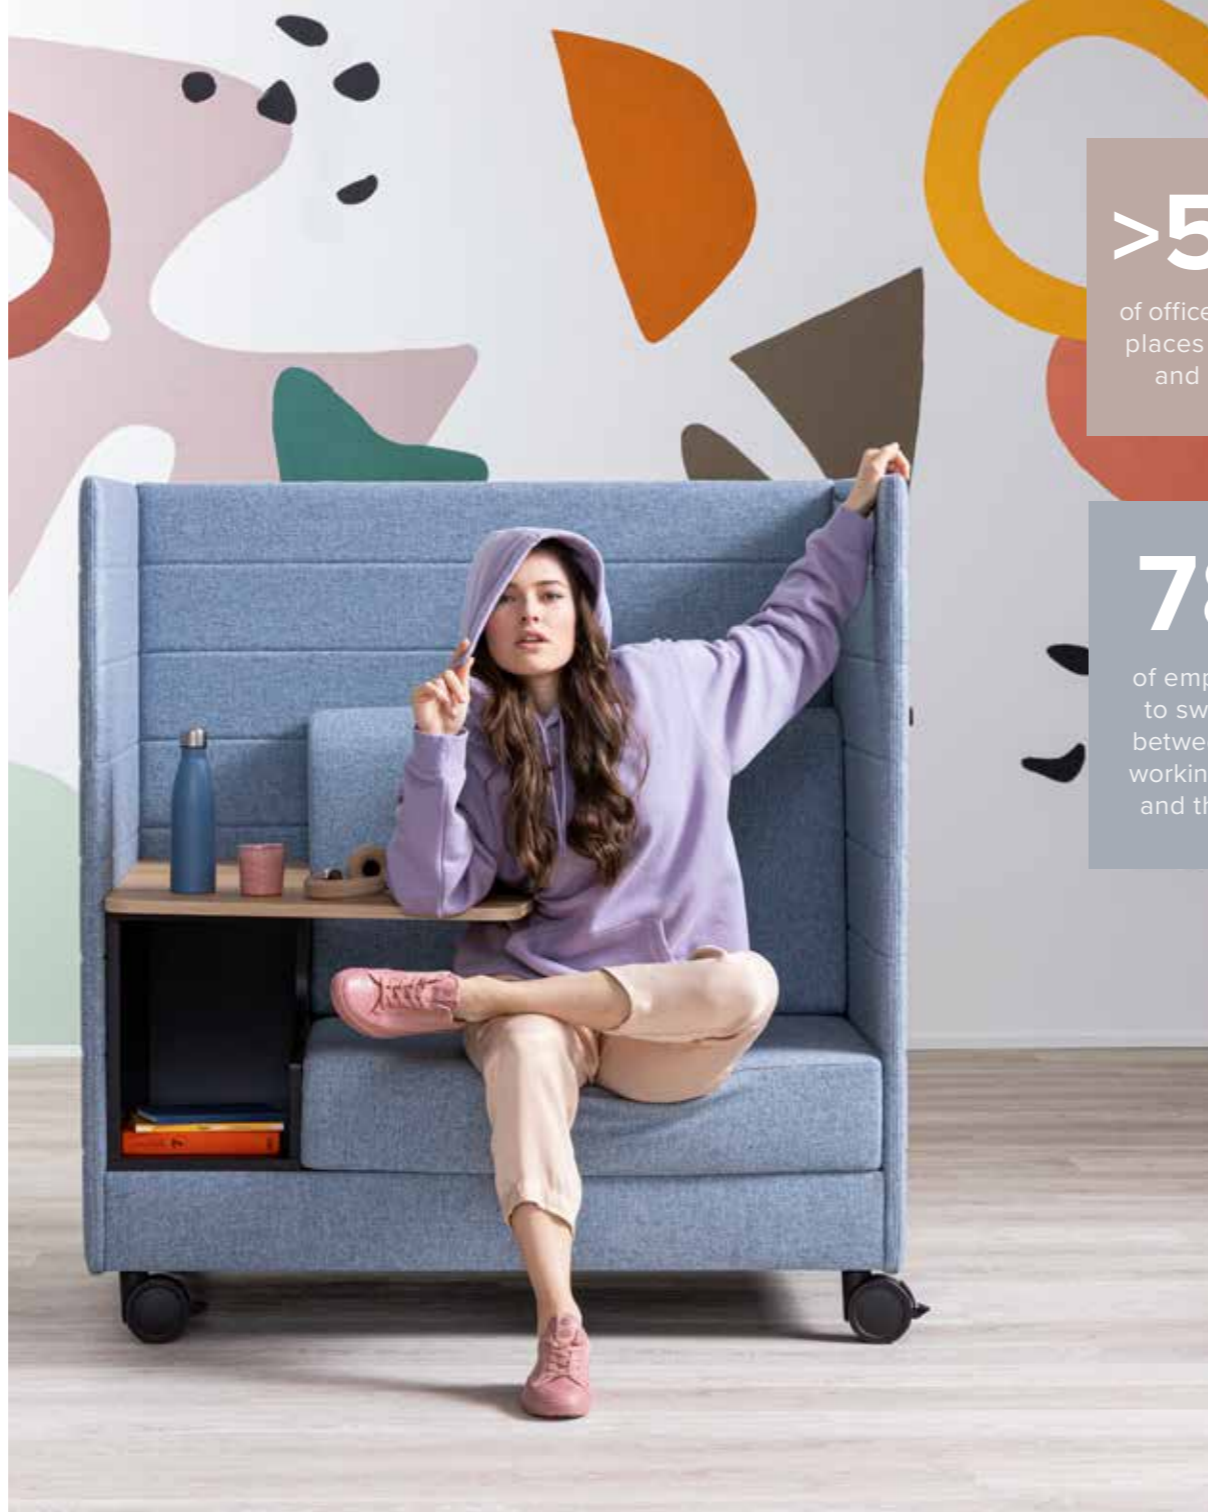

TOO COZY TO LEAVE.

“WORKING AT THE OFFICE IS ABOUT BEING TOGETHER TO EXCHANGE IDEAS.”

PURPOSE OVER PRESENCE.

In the new work culture, people want flexibility. This fuels creativity, productivity, and efficiency.

>50%

of office space will be places of encounter and exchange.¹

78%

of employees wish to switch flexibly between the office, working from home, and third places.²

WHAT'S YOUR PURPOSE, OFFICE?

As places of work alternate, the focus of the traditional office is changing to collaboration, socializing, and employer identification. It is becoming a place for people to meet. Meetings, workshops, small talk... This is where employees find a comfortable setting to exchange ideas and inspire each other. Well-planned or just spontaneously. Employers are creating a space for team building, development, and to express the company's identity. Your new purpose, your reimagined office—that's Dauphin.

SERVE THE PURPOSE. THE OFFICE OF THE FUTURE AS A “PLACE TO MEET”

5 FACTS FOR THE FUTURE OFFICE

The office presence is obsolete? Not at all! Studies and surveys show that under certain conditions employees even want to return to the office. Our 5 facts about the office of the future will tell you all about it...

1. REASON WHY I’M BACK.

People need interaction. To inspire, motivate, and learn from each other. Despite all the advantages of working from home, this is the reason why so many people are keen to return to the office. This is also confirmed by the Fraunhofer IAO’s⁷ “Working from Home” experience survey. It concludes that it is primarily the opportunities for spontaneously exchanging ideas and working on topics together that encourage employees to be present in the office, in person. And this also applies to the younger generation: 70% would like more face-to-face encounters, as a global study by XSF@home⁴ demonstrates.

Source: ^{3,5} Werkmann-Karcher, B., Zbinden, T. 2021. Remote Work im “New Normal”? Zürich: IAP Institut für Angewandte Psychologie der ZHAW Zürcher Hochschule für Angewandte Wissenschaften; ⁴ XSF@Home Survey, Cushman & Wakefield. 2020. Chicago: Cushman & Wakefield; ⁶ Dienes, Katharina & Ruess, Patrick & Rief & Stefan. 2020. Back to the Office. Berlin: Euroboden Architekturkultur, Engel & Völkers Commercial

“(THE OFFICE) WILL BE A PLACE TO MEET BECAUSE THAT IS EXACTLY WHAT WE ARE MISSING AT THE MOMENT”³

70%

of the younger generation want more personal encounters.⁴

2. IT PUSHES INNOVATION.

The best ideas are produced in teams. This is why it is also beneficial for employers to create space for collaborative teamwork. The IAO “Working from Home Experience⁷ and Office Analytics”⁸ study clearly shows there is a correlation between informal encounters and the level of creativity or production of ideas. By contrast, working from home reduces efficiency, as 72% of companies confirm. In addition, 42% confirm a reduction in innovative strength. So it’s worth being together!⁶

“WE UNDERSTAND THE OFFICE AS A MAGNET, AS A PLACE TO MEET, NO LONGER AS A PLACE WHERE WORK HAS TO BE DONE BECAUSE THIS CAN EVEN HAPPEN AT HOME... THIS IS EXTREMELY IMPORTANT FOR INNOVATION.”⁵

42%

of the companies claim a decrease of innovativeness.⁶

3. WHERE TEAMWORK MAKES MAGIC HAPPEN.

As a meeting spot, the office is becoming a creativity booster. This is the conclusion not just of many people who are returning to the office after working from home, but also the mentioned studies.

Source: ⁷ Bauer, Wilhelm & Riedel, Oliver & Weisbecker, Anette. 2020. Working from Home Experience. Stuttgart: Fraunhofer-Institut für Arbeitswirtschaft und Organisation IAO; ⁸ Bauer, Wilhelm & Jurecic, Mitja & Rief, Stefan & Stolze, Dennis, 2021. Office Analytics, Stuttgart, Fraunhofer-Institut für Arbeitswirtschaft und Organisation IAO

4. COMPANY SPIRIT IN BLENDED SPACES.

50%

of those who work remotely have problems identifying with the corporate culture.⁴

On the same wavelength... with colleagues... with the company. The office of the future is the place where teams are formed, solidarity is enhanced, and the company's values and visions are communicated. Younger generations want this too!⁶

Source: ⁴XSF@Home Survey, Cushman & Wakefield. 2020. Chicago: Cushman & Wakefield; ⁶ Dienes, Katharina & Ruess, Patrick & Rief & Stefan. 2020. Back to the Office. Berlin: Euroboden Architekturkultur, Engel & Völkers Commercial

5. PEOPLE LOVE TO COME AND STAY.

When you create space for people to meet, you experience a ripple effect in recruitment and employee loyalty. According to the IBA study "The potential of working atmosphere and workplace design for the readiness to make recommendations,"⁹ a working environment that encourages communication is a key factor in grading employer attractiveness.

Source: ⁹Dr. Radermacher, Katharina & Herdejürgen, Enja Marie. 2022. Das Potential von Arbeitsatmosphäre und Arbeitsplatzgestaltung für die Weiterempfehlungsbereitschaft. Wiesbaden: Industrieverband Büro und Arbeitswelt e. V.; April 2018. Mitarbeiterzufriedenheit. Die wachsenden Ansprüche an den Arbeitsplatz. OnePoll für Mindspace.

1 IN 6

employees has turned down a job offer because the working environment was not attractive.¹⁰

DAUPHIN LOUNGE VIBES: 4 GOOD ANSWERS FOR THE OFFICE.

VIBES

GREEN
VIBES

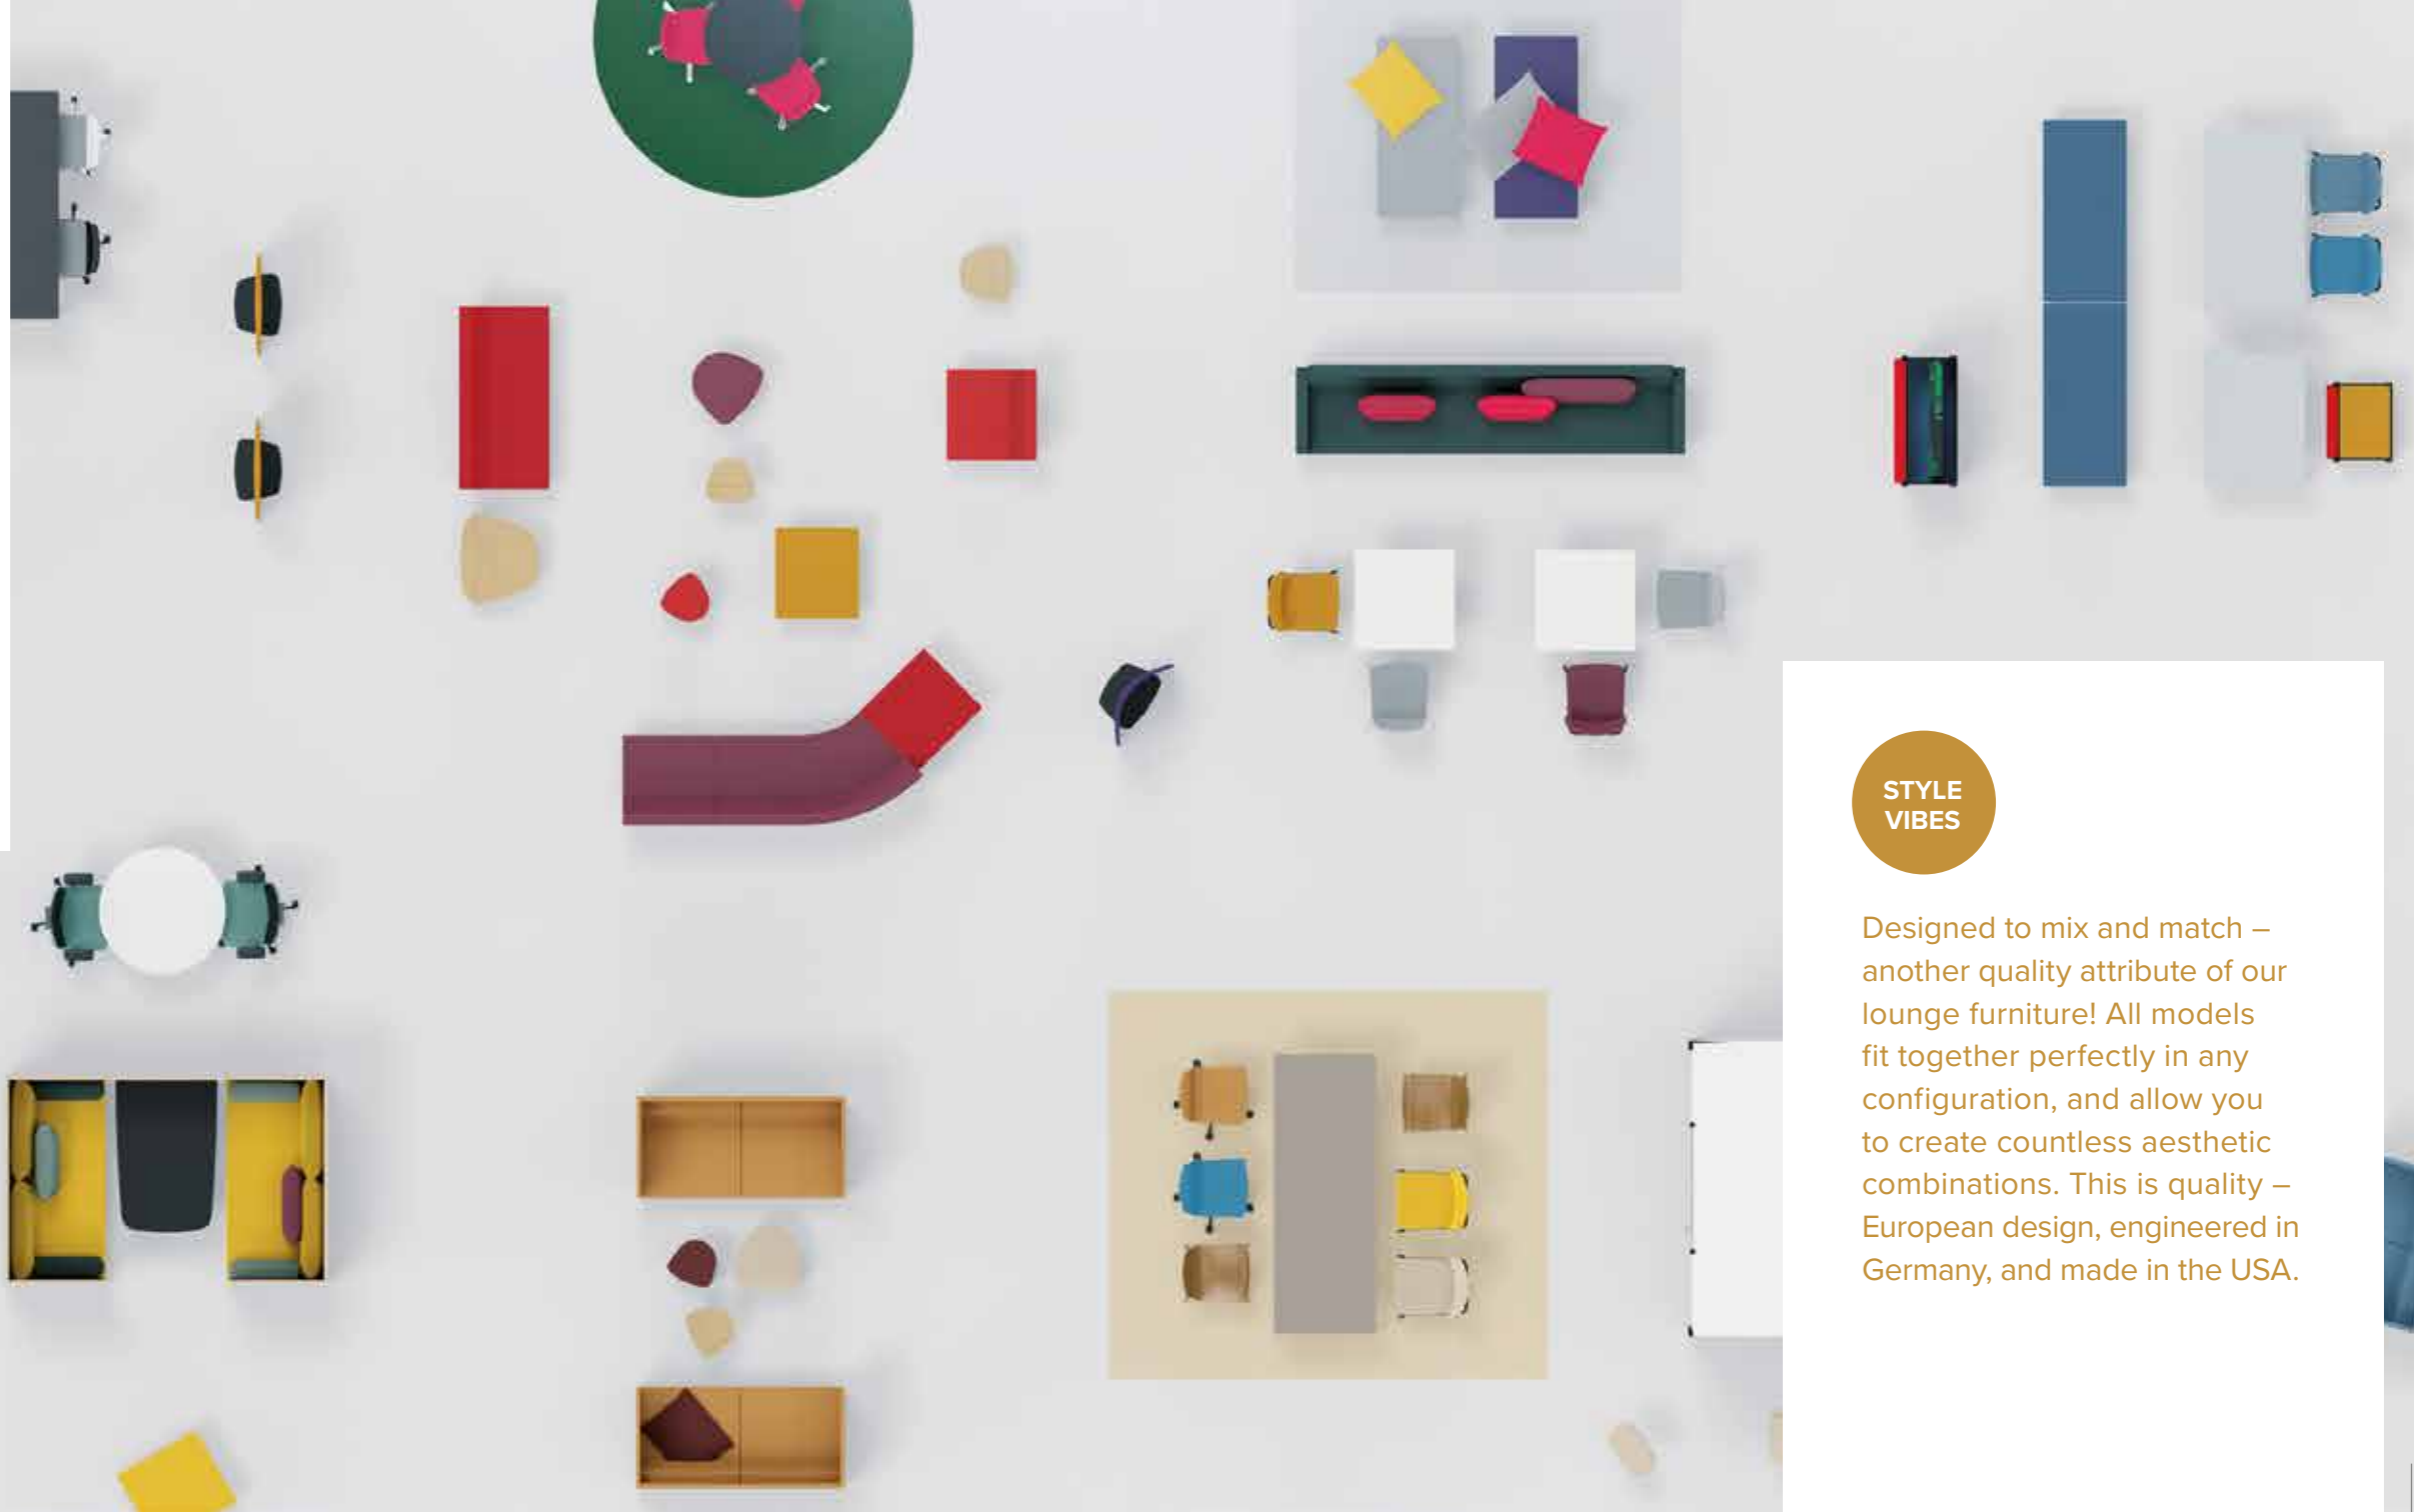

The hybrid world of work is changing the office landscape. It is not just a place for processing tasks. It is where people meet, exchange thoughts, and shape them into innovative ideas through teamwork. It is where people practice and experience the corporate culture collaboratively. So, it's all about creating meeting places, work zones, and quiet areas. In the future, more than half of office spaces will perform such functions.⁷

Dauphin's new lounge solutions turn these very office landscapes into reality. We have defined four unique Lounge Vibes which, you can use to configure the ambience of your office environment, however you wish.

APP VIBES

Staying versatile is the key when needing to satisfy the changing requirements of new, everyday work. Create flexible, collaborative work lounge spaces with seat elements that can be arranged any way you like. You can also create a place to pause, relax, and reset.

STYLE VIBES

Designed to mix and match – another quality attribute of our lounge furniture! All models fit together perfectly in any configuration, and allow you to create countless aesthetic combinations. This is quality – European design, engineered in Germany, and made in the USA.

COZY
VIBES

Comfort is king—and it's one of Dauphin's hallmarks. To help you feel cozy and comfortable, we take an ergonomic approach to the health of sitting. We believe that ingenious seating comforts the body, so that the mind can generate brilliant ideas.

SUSTAINABILITY DESIGNED, ENGINEERED IN GERMANY, AND MADE IN THE USA.

GREEN VIBES

Being sustainably responsible is an integral part of the new work culture. The Green Cycle by Dauphin shows our commitment to an eco-friendly corporate culture. Using low-emission components and recycled materials, our lounge elements meet the high standards that are defined in our environmental statement.

For more information on our sustainability commitment, visit dauphin.com/environmental

BIFMA level certification is a voluntary standard for business and institutional furniture manufacturers. The standard establishes measurable criteria for multiple levels of achievement and performance for manufacturers at different stages of their sustainability journey. Manufacturers that achieve level certification demonstrate to the marketplace that their products, manufacturing facilities, and company policies have met stringent third-party sustainability requirements.

Clean Air GOLD Certification promotes environmentally friendly sustainable signage. Having this certification allows you to: Measure the environmental impact of product VOC emissions for Indoor Air Quality. Benchmark product components to industry standards. Stay compliant to LEED EQ Low-Emitting Materials credit.

The resource-saving environmental management with EMAS (Eco-Management and Audit Scheme) ensures that all environmental aspects, from energy consumption to waste and emissions, are implemented legally and transparently to the maximum.

The Bavarian Environmental and Climate Pact aims to improve the ecological, economic, and social foundations of present and future generations in Bavaria.

Based on our certified quality and environmental management, we work consistently to continuously improve our environmental standards and quality at all locations. Customers and the environment are important to us.

RECYCLING

Homogeneous and recyclable materials, easily demountable

DESIGN & ERGONOMICS

Holistic ergonomics are at the core of our unique design philosophy and our own development center

LIFECYCLE

Free of emissions and pollutants, 5-year guarantee, life cycle, long-lasting with our own service team

SOURCING

100% pollutant-free is our focus

LOGISTICS

Reduction of packaging volume by 60% through optimized delivery with our own fleet of trucks

PRODUCTION

Engineered in Germany, Offenhausen with 100% CO²-neutral green power

TOO COZY TO LEAVE.

Simply inviting. Very appealing. Wonderfully versatile. In the modern world of work, the office may not be the only option. But you can make sure that it is the best with space for people to meet, with a focus on communication and community. Whether it is a reception, meeting area, relaxation zone, or in-house cafeteria, make face-to-face encounters a USP of your company – and a real experience for your employees and guests... with Lounge Vibes from Dauphin! This includes our Atelier, Reefs Flex, Allora Poufs, and Fiore Club office furniture. Discover new products as well as stylish and ingenious solutions for all aspects of the new work culture. The office has never been better.

ALLORA POUFS
MAKE WORK EASY.

TAKE IT EASY.

ALLORA POUFS

Design: Rüdiger Schaack

Lots of things are easier in the agile world of work. A variable place of work. Communication. Organization. And now also the flexible design of comfortable seating configurations – thanks to our Allora Poufs. The compact lightweights can be positioned quickly and effortlessly. To make your moves with ease, the smallest version is equipped with a practical carrying strap. Is there anything about these poufs that is not light and easy? Only the decision on which combination best suits your office. Choose from three sizes and lots of stylish color variations. They all blend together perfectly with the elements in Lounge Vibes, and you can embrace the space with ease.

EVERY SIZE FITS:
CHOOSE **S, M OR L.**

VARIANTS
NO SIZE ZERO?

Which size do you fancy?
Small with a carrying strap
for maximum flexibility?
Medium for added comfort?
Or large for when you also want
the pouf to be a side table.
One thing is certain:
They will all suit your office.

Ø 50%
LIGHT WEIGHT.

Does everything just seem
so light and easy? This is
no surprise because the
inwardly tilted black base
makes the Allora Poufs
look like they are floating.
And the look reflects reality:
Their ultra-light design makes
them very easy to handle.

ATELIER
ROOM FOR INSPIRATION.

LET'S GET CREATIVE.

ATELIER

Design: Rüdiger Schaack

Welcome to Atelier. Your space for moments of inspiration, exchanging ideas, and innovation. Our Atelier seat elements create the perfect ambience for you to explore ideas – together or on your own. You can choose from sled, casters, or wooden feet. Meet in our comfortable Atelier creative private space with a U configuration. Switch flexibly between working in a team and individually in our smart Atelier classic work lounge. Create extra space in no time with the practical benches. Or utilize our discreet Atelier booth to make quick calls in between. Constantly reinventing – this is Atelier.

FEATURES **WORKLOUNGE.**

The compact solo seat has three walls, which provide privacy and soundproofing. The integrated table with storage space beneath provides room for you to spread out.

FEATURES **CLASSIC BENCH.**

Whether as an additional, comfortably upholstered place to sit or a side table, the Classic Bench goes wherever you need it. With 30 x 24 in of space, it offers the perfect support – optionally on casters, sled legs, or wooden feet. Integrates seamlessly into any Atelier ensemble.

ENJOY MY
HAPPY PLACE.

REEFS FLEX

TO TALK AND RELAX.

FLEXIBLE COMFORT.
REEFS FLEX

Design: Jessica Engelhardt

The perfect answer to the agility of the new world of work? Modularity. This is the outstanding feature of our seating solutions in the Reefs Flex range. You can combine the basic modules in new ways to suit your own individual preference. You will find a huge range of colors and materials from which you can magically create your own comfortable environment. They look great at home too! Thanks to a specially developed quick-click connector, the elements can be connected in no time without using tools. Stay flexible. Stay comfy.

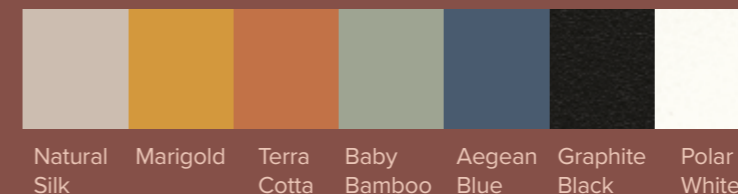

FEATURES
REEFS FLEX.

Ready for an agile day: An attachable tray provides flexible storage space. The sled base makes it easy to reposition. They can be connected using clever quick-click connectors. Add real style with a choice of seven different colors.

SLED LEG OPTIONS

REEFS FLEX

BE CONNECTED.

REEFS FLEX
MIX IT UP.

Where do you want to go? Wherever you want!
Reefs Flex offers you complete freedom
in combining different colors and modules.
With a backrest. Without a backrest.
Frame and upholstery in just one color
or contrasting. Individual workstations.
Rows of seats. Around a bend. Around a corner.
Or a bit of everything... Mix as you wish!

DETAILS

FOR THE LOVE OF DETAIL.

Simply compelling – even on second reflection. Reefs Flex is designed down to the last detail. High-quality finish and a large selection of quality fabrics create a pleasant look and feel. Gently contouring seams accentuate the character of each piece of furniture. As the fabrics, frames, and colors can be combined in countless different ways, you too, can become lost – and repeatedly fall in love again – with specific details.

FIORE CLUB
COZY BY NATURE.

WELCOME TO THE CLUB.

FIORE CLUB

Design: Jessica Engelhardt

Natural. Authentic. Relaxed. This is what we want our face-to-face encounters and chats to be like. And as a meeting place, the modern office should also reflect these attributes. This is precisely why we developed Fiore Club. The organic flower shape of the seat shells convey an elegant sense of comfort. The upholstery with soft armrests invites you to linger and relax. Choose your own individual “bouquet” of seating: lots of trendy colors and different frames allow you to combine to your heart’s content.

COMBINATIONS
**LOVELY
BY NATURE.**

Whether you want informal or casual: Fiore Club is like a colorful bouquet, adding a pleasant charm to any setting. A bright dash of color in reception, waiting, and meeting areas. As a stylish four-legged model for dining and conference rooms. As a comfort chair that can roll around on casters in your office.

FROM HOME TO OFFICE.

Home is moving into the office and the office is moving into the home. As people alternate between going into the office and working from home, it is becoming even more important to create an attractive, cozy ambience for both places of work. Our Lounge Vibes series links together respectability and comfort to make a bold statement with stylish pragmatism. Casual relaxed vibes meet prestigious elegance. You can decide how pronounced each aspect is – by choosing seat elements, colors, covers, and frames. Feel at home – wherever you work.

FROM INDOOR TO OUTDOOR.

DYNAMIC STYLING. **CEMPA ALFRESCO**

The wonderful world of Cempa chairs does not end at the office or front door. With Cempa Alfresco, the designer seats inspired by nature are also a popular choice for outdoor spaces at offices, cafeterias, or staff restaurants. They have a friendly appearance with dynamic styling and lots of trendy colors that can be combined in various ways. The colorful selection also looks great on your patio. And thanks to their weather resistant finish, neither sunlight nor bad weather can diminish the bright colors of these smart chairs. Color your outdoor life.

**COLOR YOUR
OUTDOOR LIFE.**

FROM OUTDOOR TO INDOOR.

FLEXIBLE STRUCTURE. **CEMPA NESTING**

New work dynamics need flexible structures. Cempa Nesting is your variable partner for agile projects – whether with or without armrests, or with a practical anti-panic writing tablet. Maximize your space and adapt your layout as needed, for creative teamwork to be a success!
